

EXECUTIVE SUMMARY REPORT

KETTLE MORAINE SCHOOL DISTRICT

06/03/2016

Kettle Moraine High School

Renovation progress in the high school is moving along swiftly as we gear up for summer 2016 work!

Finished Work this Past School Year

- Multiple girls and boys bathroom remodels around the school have been completed and are now open
- Music Ensemble area off of the Band Room has been completed
- West Commons area has been completed and is in use!
- New café remodel is in the final stages of completion

New bathroom remodel

New Music Ensemble Area

Work Coming Up This Summer

- Acoustical tile clouds will be installed above the commons
- Decorative wood panels installation in the main hallway outside the commons will be completed
- Electrical, HVAC, and plumbing work will be completed throughout the building with the installation of new Fire Alarm Devices, Clocks, Wireless Access Points, and Card Access Security Devices

Completed West Commons Area adjacent to the Cafeteria

Did you know? The use of wall and floor tile as interior and exterior decorations dates back to ancient Egyptian, Babylonian, and Assyrian times. The invention of the tunnel kiln vastly increased the efficiency the tile manufacturing process today. Depending on the type of firing kilns used, maximum temperatures in the kiln can reach 2,372 degrees Fahrenheit.
