

EXECUTIVE SUMMARY REPORT

KETTLE MORAINE SCHOOL DISTRICT

06/03/2016

Kettle Moraine Middle School

Renovations in the Middle School are progressing nicely as we gear up for the remaining summer 2016 work!

Work Completed this Past School Year

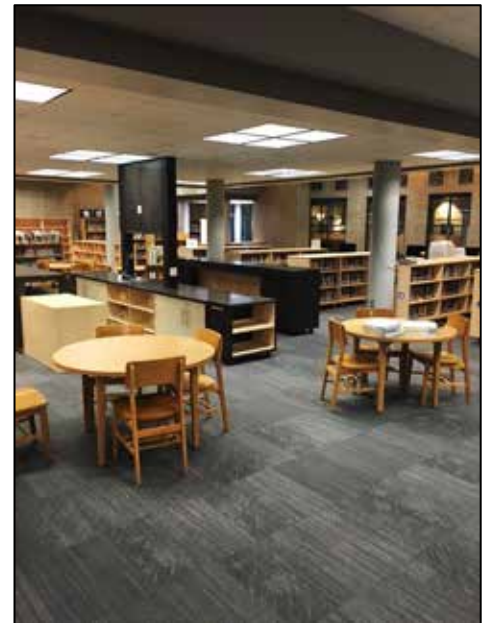

- Gym joists have been painted
- Art Room floor has been refinished
- Select flooring replacement in 6th, 7th, and 8th grade houses, library, and creative space

Work Coming Up This Summer

- New wall mural to be installed across from the guidance office
- Repainting selected rooms in 6th, 7th, and 8th grade houses
- Complete flooring replacements throughout 6th, 7th, and 8th grade houses, library, and creative space
- Cafeteria bathrooms remodel
- HVAC and electrical work will be completed in 6th, 7th, and 8th grade houses, library, and creative space with the installation of new Fire Alarm Devices

Completed resilient flooring installation in 6th grade science room

Completed carpeting installation in the Library

Did you know? The use of murals of sorts date back to nearly 30,000 BC, during Upper Paleolithic times found in southern France and many ancient murals have survived in Egyptian tombs. With the use of today's technology, murals today can be painted or created by transferring a photographic image to poster paper or canvas which is then pasted onto a wall surface.
