**WHAT IS LACROSSE?** Lacrosse, considered America's first sport, is a combination of basketball, soccer and hockey. It is played with a stick, the crosse, which must be mastered by the player to throw, catch and scoop the ball.

Anyone can play lacrosse—the big or the small. The game requires and rewards coordination and agility, not brawn. Quickness and speed are two highly prized qualities in lacrosse. An exhilarating sport, lacrosse is fast-paced and full of action.
